DATE: 4 June 1965

FROM : Chief, Career Training Program

SUBJECT: Weekly Activities Report #12

A. SIGNIFICANT ITEMS

In my report of 14 April I referred to the touch-and-go aspects of filling the July Class, and particularly the significance of the processing-time factor during the annual Spring job competition among seniors and graduate students. We haven't done too badly this far and with luck we will get our 75. However, if we lose a few cases we may have a lesser number. Basically, this is just another aspect of the process of adjusting our input-and-processing system to the requirements of an expanded program. In FY '65, for the first time, we formed four classes; in effect, we drained the pipeline of cleared candidates each quarter. Goals were met but we didn't give ourselves a chance to accumulate any reserves. I think our effort now must be to put more candidates into the pipeline, both to broaden the field of selection and to lessen the pressures for last-minute clearances as class deadlines approach. We, with the Office of Personnel, have been watching this situation and the Recruitment Division is acting to step up CTP recruitment and to extend it more actively over the full year.
